Answer: C

NEW QUESTION: 3

What is the BEST alternative if you discover that a rootkit has been installed on one of your computers?

A. Reload from known good media

B. Perform a trap and trace

C. Copy the system files from a known good system

D. Reload from a previous backup

E. Delete the files and try to determine the source

Answer: A

Explanation:

If a rootkit is discovered, you will need to reload from known good media. This typically means performing a complete reinstall.
