NEW QUESTION: 2

What is the function of a Project Management Office (PMO)?

- A. To focus on the coordinated planning, prioritization, and execution of projects and subprojects that are tied to the parent organizations or the client's overall business objectives.
- B. To administer performance reviews for the project manager and the project team members and to handle any personnel and payroll issues.
- C. To focus on the specified project objectives and to manage the scope, schedule, cost, and quality of the work packages.
- D. To coordinate and manage the procurement of projects relevant to the parent organization's business objectives and to administer the project charters accordingly.

Answer: A

Explanation:

Explanation/Reference:

Explanation:

A primary function of a PMO is to support project managers in a variety of ways which may include, but are not limited to:
 Managing shared resources across all projects administered by the PMO;

Identifying and developing project management methodology, best practices, and standards;

Coaching, mentoring, training, and oversight;

Monitoring compliance with project management standards, policies, procedures, and templates by

means of project audits;

Developing and managing project policies, procedures, templates, and other shared documentation

(organizational process assets); and

Coordinating communication across projects.
