#### **NEW QUESTION: 1**

You are developing an application. The application calls a method that returns an array of integers named `customerIds`. You define an integer variable named `customerIdToRemove` and assign a value to it. You declare an array named `filteredCustomerIds`. You have the following requirements.

- \* Remove duplicate integers from the `customerIds` array.
- \* Sort the array in order from the highest value to the lowest value.
- \* Remove the integer value stored in the `customerIdToRemove` variable from the `customerIds` array.

You need to create a LINQ query to meet the requirements.
