indows-10.htm

NEW QUESTION: 3
The social network that is used solely for sharing videos is
A. Facebook.
B. YouTube.
C. Google.
D. LinkedIn.
E. Twitter.
Answer: B

NEW QUESTION: 4
Scenario: A company maintains a XenDesktop infrastructure with
a stand-alone license server. Recently, the license server had
a hardware failure and can NO longer communicate on the
network.
The license server has a valid license file with a current
Subscription Advantage (SA) date on it.
What will happen to the XenDesktop environment with the license
server now offline?
A. Users will immediately be unable to connect to their
resources.
B. The license server will enter a 30-day grace period in which
all user connections will work.
C. Users will have limited connections available during a
30-day grace period.
D. The license server will enter a 90-day grace period in which

all user connections will work.
Answer: B
Explanation:
Explanation/Reference:
Explanation:
Impact of Citrix License Server Becoming Unavailable
Need to understand the impact of the Citrix license server that
holds the XenMobile licenses becoming unavailable. That is how
will XM respond if the configured license server cannot be
contacted for an extended period of time.
Theanswer: There is another "grace" period which kicks in once
a license Server has been configured and a
license detected which is not the same than the trial "grace
period" which the document is referring. We keep a timestamp
either on the local server or the common database when the
license Service has been last available and if it becomes
offline for some reason the clock starts ticking for 720 hours
and this timer will reset if the license server becomes online
again. So this is what would happen if the license server goes
offline for some reason we would have 720 hours for amending
the issue before the devices lose connectivity to the MDM
server or XMS and once solved the problem the time would reset.
