Secondly, people are very busy in the modern society, In such

New Sales-Cloud-Consultant Dumps Pdf a way, you can overcome your lack of confidence as well since you can have an overall look, If you're skeptical aboutour Salesforce Sales-Cloud-Consultant exam dumps, you are more than welcome to try our demo for free and see what rest of the CCT Sales-Cloud-Consultant exam applicants experience by availing our products.

Business-First is the only way to go [EGFF2201 Testking Exam Questions](#) through your exam and get success in Business-First Profession.

NEW QUESTION: 1
Note: This question is part of series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.
After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.
You have an Azure subscription named Project1. Only a group named Project1admins is assigned roles in the Project1 subscription. The Project1 subscription contains all the resources for an application named Application1.
Your company is developing a new application named Application2. The members of the Application2 development team belong to an Azure Active Directory (Azure AD) group named App2Dev.
You identify the following requirements for Application2:
The members of App2Dev must be prevented from changing the role assignments in Azure.

The members of App2Dev must be able to create new Azure resources required by Application2.

All the required role assignments for Application2 will be performed by the members of Project1admins.

You need to recommend a solution for the role assignments of Application2.
Solution: Create a new Azure subscription named Project2. Assign Project1admins the Owner role for the Project2 subscription. Assign App2Dev the Contributor role for the Project2 subscription.
Does this meet the goal?
A. Yes
B. No
Answer: A

NEW QUESTION: 2

A. Option C
B. Option D
C. Option A
D. Option B
Answer: C
Explanation:
Explanation
Serial Connection

cl_3_dte_male

cl_2_dce
The picture on the left shows a V.35 DTE cable with a male DB60 connector and a male standard 34-pin Winchester-type connector. The right picture shows a V.35 DCE serial cable with a male DB60 connector and a female 34-pin Winchester-type connector. As you probably guessed already, the male connector of the DTE cable is attached to the DCE cable's female connector, this is depicted in the picture below. This is known as a back-to-back connection, and 'simulates' a WAN link. In a real world setup, the DTE cable's male connector typically connects to a port on a CSU/DSU provided by a service provider (i.e. telco), which in turn connects to a CSU/DSU at another location, thru a T1 link for example. The DB60 connector connects to a Serial interface on a router.

NEW QUESTION: 3
Your business user has created a purchase order (PO) that has the following attributes:
Accrue at Receipt = Yes
Matching Option = 2 way
Receipt Close Tolerance = 100%
After approval, the PO is closed for receiving without creating a receipt. An AP invoice is created by matching to the PO. The user now runs Create Accounting for Receiving Transactions and then the "Import and Process Cost transactions" ESS (Enterprise Scheduler Service) job using the Transaction Source parameter as "Oracle Payables". The user notices that there is no cost transferred to the projects. Identify two reasons for this problem. (Choose two.)
A. When you have an AP invoice that is matched against a PO with Accrue at Receipt set to Yes, cost is transferred to projects only if there are accounted receipt lines.
B. When you have an AP invoice that is matched against a PO with Accrue at Receipt set to YES, cost is transferred to projects by Cost Management and not by Payables.

C. When you have an AP invoice that is matched against a PO with Accrue at Receipt set to Yes, cost is transferred to project by payables.
D. When you have an AP invoice that is matched against a PO with Accrue at Receipt set to NO, cost is transferred to projects by receipt accounting.
Answer: A,D

NEW QUESTION: 4
Which VPN technology requires the use of an external key server?
A. DMVPN
B. SSL
C. GETVPN
D. L2TPv3
E. IPsec
F. GDOI
Answer: C
Explanation:
A GETVPN deployment has primarily three components, Key Server (KS), Group Member (GM), and Group Domain of Interpretation (GDOI) protocol. GMs do encrypt/decrypt the traffic and KS distribute the encryption key to all the group members. The KS decides on one single data encryption key for a given life time. Since all GMs use the same key, any GM can decrypt the traffic encrypted by any other GM. GDOI protocol is used between the GM and KS for group key and group SA management. Minimum one KS is required for a GETVPN deployment.
